5/3/2016
date of report

RESULTS:

Based upon the exam dated 4/20/2016, this dog has been found to be free of significant observable inherited eye disease and has been issued an Eye Certification Registry Number which is valid for one year from the time of the exam. The following breeder option codes were noted:

E1: CATARACT - SUSPECT NOT INHERITED

Breeder Options are clinical observations that may be inherited but do not represent current potential compromise of ocular comfort, vision or other ocular functions.

Test Results: Genotype of your dog is NORMAL/CLEAR of the form of HNPk caused by the SUV39H2 mutation.

Risk for Developing: This dog will not develop the form of HNPk caused by the SUV39H2 mutation.

Significance for breeding: Genetically Normal/Clear dogs can be bred to any dog and will produce no pups with HNPk due to the SUV39H2 mutation.

For further information, please consult the OptiGen website www.optigen.com

International DNA Based Genetic Database: To register this result with OFA, make a copy, sign below, mail WITH FEE, to OFA, 2300 E. Nifong Blvd, Columbia, MO 65201-3856 or FAX to 573-875-5073. www.ofa.org

I hereby certify that the sample submitted was of the animal described on this application. I authorize the OFA to release all information on the test results thus placing the results in the public domain and I hereby release OFA from any and all liability associated with the release of test information.
